Vol. X. No. 2047.

HONOLULU, TERRITORY OF HAWAII, FRIDAY, JANUARY 17 1902

PRICE 5 CENTS.

REGISTERED MAIL RECEIVED AT HOME

By Authorized Carriers
of the Post Office
Department.

NEW CONVENIENCE THAT WILL BE VERY WELCOME

Possibility of Steamer Mail Clerks--
Great Benefit That Will Be
Derived -- Extension
of Districts.

Commencing with Monday next, people of the residence and business portions of the city will have another of the great conveniences that the post office is continually introducing. Hereafter, it has been necessary for people to travel to the postoffice every time they wished to register a letter. All that is to be done away with and on Monday the letter-carriers will register letters at the homes or offices of people who have communicated to the postoffice their desire to have their mail delivered by these carriers.

Cards conveying all the necessary information have been sent to people along the various routes so that they may understand just what to do when they wish to have registered letters taken by the carriers. Each person sending such a letter will be furnished with a receipt by the carrier.

It is not necessary that there shall be the exact postage on the letter. The carrier will put down the amount of postage in a place on the receipt especially designated for that purpose. Money of any denomination may be handed the carrier and, if the amount is more than the requisite postage calls for, the charge will be sent from the postoffice on the next day.

The present proposition of the post-office does not figure on registered packages. The sending of these will have to be attended to at the office. Only first-class matter will be taken by the carriers.

Mr. Kenake cautions every sender of a registered letter to place his or her name with the full address on the back of such letter. The letters should also be ready before the arrival of the carrier in order to assure despatch.

Every party sending a registered letter in this new way should be careful to note the number of the carrier, which can be plainly seen on the cap just above the visor. This caution is to protect people from persons who might call at their houses in carriers' uniforms without authority to collect mail.

While this system will be of great convenience to a large number of the city, it is among the possibilities that still a greater number will be accommodated in the same way before long for the extension of the free delivery system is now in contemplation.

It is the hope of the postoffice officials that mail clerks or agents will soon be installed on the various steamers plying between this port and San Francisco. When this system is adopted, it will be absolutely necessary that every letter shall be properly addressed if despatch is what is required.

This steamer clerk system will be an additional convenience. Mail will be sorted aboard the various steamers so that, upon the arrival of the bags in the postoffice, the complete mail for any given business house or private residence will be placed directly in the corresponding boxes, thus saving various parties of their complete mail about a half-hour after the arrival of steamers.

HAVEMEYER REPORTS AGAINST PROTECTION

New York, Jan. 8.—At the annual meeting of the stockholders of the American Sugar Refining Company in Jersey City today, President Havemeyer presented his annual report. He said:

"It would seem that with an overflowing Federal Treasury there had disappeared any reason for continuing the existing high tariff upon raw sugar. It constitutes a charge upon the consumption of nearly two cents a pound.

"This represents on an annual consumption of 2,360,000 tons, \$45,000,000 a year. Of this, however, only 1,360,000 tons are imported, yielding customs revenues of \$49,000,000. The balance, \$36,000,000 goes into the pockets of the planters.

"A removal of the duty on raw sugar would result in a saving to the consumer of \$36,000,000."

OPPOSE CUBAN RECIPROCITY.

Sacramento, Jan. 8.—The Sacramento Board of Supervisors this morning unanimously passed a resolution opposing reciprocity with Cuba and requesting the California Representatives in Congress to consider the interests of the Sacramento valley.

The steamer W. G. Hall arrived from Kona and Maui ports this morning, after a pleasant round trip. She brought many passengers and a large cargo of general freight, besides 2413 sacks of sugar. Purser Simpson reports splendid weather.

LONGSHOREMEN ACTIVE.

The signing of the roll of the Longshoremen's Union by laborers along the wharves, goes steadily on. At the meeting Wednesday night there were but 130 signatures. Today, the number has reached 200. Before the circulation of the roll is completed, it is expected that there will be twice this number of names. The men are all very enthusiastic. They have come to the conclusion that in union only lies their safety from the encroachments of the Asiatic laborers who have been displacing them steadily for several months past.

Telephone the EVENING BULLETIN, Main 256, if you have books to be made, printing to be done, etc., etc., and we will call. We have men that know their business for that purpose.

PRINCE AND HIS BRIDE

NOTABLE MARRIAGE OF HAWAIIANS IN 'FRISCO

Native Alii and Miss Campbell,
Both of Honolulu, United
By Archbishop
Riordan.

San Francisco, Jan. 6.—Punctually at noon today Archbishop Riordan, who was assisted by Father Ramm of the Cathedral, united in matrimony Miss Abigail Campbell of San Jose and Prince David Kawananakoa of Honolulu. The ceremony was performed under a canopy of ferns and white roses in the main parlor of the Occidental Hotel. Only a few relatives and guests were present, although there was a large gathering in the corridors of the uninvited, most of them residents of the hotel, who viewed the wedding procession and stole a peep at the ceremony.

It was five minutes before noon when the decorators withdrew from the parlor and the servants finished sweeping and dusting. Prince David and his attendants had one room and the bride and her attendants another; the guests had several rooms, and an apartment was reserved for the Archbishop and Father Ramm.

As the noon hour struck Major Hooper sent word that all was ready. The bridal procession formed quickly. Ernest Parker, son of Colonel Sam Parker, led the way with Prince David. Mr. Ryland of San Jose escorted the bride, who is a tall and comely Hawaiian girl, and who was attired in a beautiful gown of white lace and wore a large white hat with a feather. Behind the bride walked Colonel Sam Parker and his bride, who is the mother of Prince David's bride.

The ceremony in the parlor was very simple. There was no music. Princes David and Miss Campbell stood before the Archbishop. On the right of the Prince was Ernest Parker and on the left of the bride Miss Anita Crystal of Honolulu, her most intimate friend. Judge J. C. B. Hebbard of this city, Judge George D. Gear and Judge Davis of Honolulu, Mrs. Alice Carmichael, Miss Ethel Gay of Honolulu, B. F. Dillingham of Honolulu and the younger members of the Parker and Campbell families stood about the bride and groom. Not more than fifteen others were in the parlor.

After the ceremony all the relatives kissed the bride and congratulated the groom. There was a wedding breakfast before which forty persons sat down.

The two bridal pairs, Colonel Sam Parker and his wife, and Prince David and his wife, accompanied by Judge Davis, will depart tomorrow by the Santa Fe for Washington, D. C.

ROSEBERY AND RHODES.

New York, Jan. 8.—Commenting upon the situation in South Africa, the London correspondent of the Tribune says:

Lord Rosebery will entertain Cecil Rhodes at Manton for a few days and will be brought into closer touch with the situation in South Africa. Speculators in mining shares are anxious to impress foreigners with the fact that there is a boom in the Kaffir market. Prices have advanced intermittently during the last few weeks, but the movement is artificial, with speculative purchases with borrowed money, rather than solid investments. Operators eager to work up excitement in the Kaffir market refer to the increased demand for shares from Paris and New York, but the evidence of foreign investment is tainted with suspicion. The market is always strengthened when Mr. Rhodes is in London, for his optimism is infectious. Money is now cheap in the city, and speculative purchases of shares are daily financed.

FINE KONA CANE

There are three sticks of sugar cane in the McInerney shoe store, Fort street, which reach to the high ceiling. They came from Mr. Cooper's place in Kona by the W. G. Hall today. When seen about the cane this morning, Mr. Cooper said: "There is no doubt whatever that the Kona plantation can be brought up by proper handling to yield as good a crop per acre as any sugar estate in the islands. You can see this yourself by the cane which is from second attention."

PALOLO COMPANY SHOWS FAIR YEAR

Land Sale Agreements
of Nearly \$21,000
Were Effectuated.

DESPITE THE DEPRESSION GOODLY PROFITS REALIZED

Only a Small Proportion of Capital
Stock Issued—Money for Re-
duction of Mortgage or Pay-
ment of Dividends.

Despite the financial stringency, the Palolo Land & Improvement Company makes a favorable showing for the past year. Some particulars are gleaned from the report of A. Frank Cooke, president and manager, and that of W. L. Howard, treasurer.

In section No. 1 of the company's land, 45 lots have been sold in 24 agreements, amounting in value to \$20,550. Nine deeds were delivered during the year, conveying 16 lots for an aggregate amount of \$9900.

There was paid \$2500 on account of the general mortgage, reducing that indebtedness to \$41,500—this covering 1500 acres of land, the largest holding in the Territory of any real estate concern of the kind. Only \$15,000 of the capital stock has been issued, leaving \$35,000 in the treasury for future operations.

The treasurer's report shows a net profit of \$8469.49, making a total profit for the two years of \$18,444. This amount stands to reduce the mortgage debt or, in the event of the disposal of the treasury stock, for the payment of dividends. Such a happy result would be an almost certainty upon a relaxation of the prevailing financial tightness.

The gross resources of the company are \$202,155.26. Against that are but the cost of \$41,500 and notes due on the crusher and improvements of \$25,000, or a total of \$66,500.

From the lands of the company at Palolo a view is commanded which takes in the islands of Molokai and Lanai on clear days, besides the entire stretch on this side of the mountains from Diamond Head to Barber's Point including the city and harbor of Honolulu.

The company has the largest stone-crusher in the Territory, having a capacity of 400 cubic yards a day. Plans are being discussed for bringing rapid transit facilities to Palolo.

PRESIDENT'S APPOINTMENTS.

Washington, Jan. 6.—The President sent the following nominations to the Senate:
Leah M. Shaw, Secretary of the Treasury.

Henry C. Payne, Wisconsin, Postmaster General.
John R. A. Croeland, Missouri, Minister Resident and Consul General to Liberia.

Alphonso J. Lepinasso, New York, Consul at Tuxtepec, Mexico.
Treasury—Conrad N. Jordan, Assistant Treasurer of the United States at New York.

George W. Whitehead, appraiser of merchandise, District of New York.
Surveyor of Customs, Robert G. Pearce, Port of Rock Island, Ill.

W. S. Graham, Surveyor General of California.
United States Attorneys—Frederick S. Nave, for Arizona; Sardis Summerfield, District of Nevada.
United States Marshals—Edward W. Kennedy, District of South Dakota; H. F. Daniels, Territory of Arizona.

DEATH OF MAGOON.

San Francisco, Jan. 8.—Captain F. A. Magoon of the transport Lawton, in the Philippine service, died yesterday morning at the Presidio Hospital after a long illness from malaria and other ailments. Out of respect to his memory the flag on the transport dock was placed at half-mast. Captain Magoon was formerly master of the ship J. B. Brown, and subsequently chief owner of the transport Warren, before being appointed to command the Lawton. He was an able and highly respected officer. On account of his illness he was forced some weeks ago to leave the Philippines, and come home in the Sheridan. He leaves a wife and several children. Several months ago, as he was passing through the Golden Gate on the way to Manila with the Lawton, one of his sons died in this city.

Captain Magoon was quite well known to many of the waterfronters in Honolulu and for many years before entering the transport service was in the sailing vessels.

Holiday is not being kept in the office of the Superintendent of Public Works. Deputy Clerk Vierra said this morning there was too much work to attend any time for play in that bureau.

THE HYADES BEAT THE HAWAIIAN IN

The two big freight steamers Hyades and Hawaiian arrived here this morning from San Francisco after a trip of nine days. The vessels left the Coast within an hour of each other, the Hyades which was just clear of the dock, made a little the best time as she was expected to beat the Hawaiian to port by a day, the mail consisting of 130 bags, was put aboard her. This is her first visit to this port and she will for several months, make regular calls here and at the other islands.

Captain Handfield of the Hawaiian left that vessel in San Francisco and he was put in command of Captain Nienola, her former commander going east to take the big 12,000 ton steamer Alaskan which will be ready for work in a short time. Both steamers have large cargoes for this port. The Hawaiian's cargo around the Horn was partially put aboard at San Francisco. It consists of 20,000 cases of canned goods.

TO IMPROVE MANGOES

DIRECTOR SMITH RECEIVES PROFESSOR GALE'S METHOD

It Will Be Put in Operation Here—
Results of Veteran Horticulturist's
Experiments—The Coast
Market.

Improvement of the Hawaiian mango crop has been made a definite object by Director Jared G. Smith of the Federal Experiment Station. His efforts in this line may be expected to make feasible a profitable export of this luscious fruit in cold storage to San Francisco.

Mr. Smith wrote to Professor L. Gale of Mangonia, Florida, on the subject and has received his answer. Prof. Gale is one of the oldest agriculturists and horticulturists in Florida, being nearly four score years of age. Prior to his experiments nobody knew any mode of grafting the mango excepting that of "inarching." Prof. Gale developed a method of propagating the mango tree which works. It takes a graft of the ripened wood and makes the union just above the ground. It is a tongue graft the practice, and he covers the undergraft with soil.

This method is now quite generally practiced by horticulturists in Florida and proves a safe and reasonably easy method of propagating varieties. Prof. Gale furnishes Mr. Smith with directions for employing the method. Twelve years ago the Agricultural Department procured a supply of mango seeds from India, distributing the whole in Florida. Prof. Gale was the only man who succeeded in doing anything with the seeds. He made one of the best varieties grow and it is now being extensively cultivated. Large shipments of the fruit are made to New York. If it had not been for Prof. Gale's experiments, people could not propagate the trees so readily as they do.

MADE 450 CITIZENS

Clerk Maling has made up his report for Secretary Cooper's handbook of the naturalizations by Judge Estee from the opening of the United States District Court on August 2, 1900, to date. The first naturalization was on August 8, 1900. Prior to the organization of the Federal court many naturalizations took place in the Supreme Court of Hawaii, but owing to the high price there the business has since then been lost to that tribunal. By original naturalization the numbers of persons made citizens by Judge Estee are as follows:

Great Britain and Ireland	165
Netherlands	3
Portugal	129
Italy	1
Norway and Sweden	50
U. S. of Colombia	75
Denmark	2
Prussia	4
France	2
Austria	6
Russia	3
Spain	5
Switzerland	1
Peru	1
Total	450

Miss Foraker Married.

Washington, Jan. 8.—Miss Julia Foraker, youngest daughter of Senator and Mrs. Foraker, was married at her parents' residence here today to Mr. Francis King Walworth of Philadelphia. The ceremony was performed by Rev. Dr. Mackay Smith and was followed by a reception at which about 500 guests were present.

In Central Union church Sunday, the morning sermon of Rev. Wm. Morris Kincaid will be: "The Divine Vigilance." Evening subject: "Drifting." The Christian Endeavor missionary meeting at 8:30 p. m. will be led by Lyle A. Dickey and Miss Mabel Brun.

PORTO RICANS AT HONOKAA

Committed Depredations
and Are Whipped
by Japs.

ATTEMPT MADE TO BREAK OPEN PLANTATION SAFE

Held Up Two Japanese and a Riot
Ensued in Which Robbers
Were Severely
Beaten.

It seems from all reports that the Porto Ricans are making their presence felt in other places in the islands than Honolulu. From Honokaa comes word that in that district the laborers have been acting very badly and a good deal of trouble with the Japanese has been caused by the depredations of the Porto Ricans. Hardly any of them are working regularly, and during their idle moments they have been committing small thefts about the plantations and several hold-ups on the roads have been laid to their doors.

One night last week the office at the Honokaa mill was broken open and an attempt made to open the office safe. The hinges on the big strong box were smashed and the combination tampered with and badly twisted in an effort to get at the contents of the vault. This attempt at safe-breaking has been traced to the Porto Ricans, and when the steamer left Honokaa arrests were soon to be made.

The houses and rooms of many of the white employes of the plantation have been entered and articles of clothing and small things of value stolen. In nearly every case the stolen articles were traced to Porto Ricans.

As the result of an attempted hold-up of two Japanese recently a small-sized riot between the Japanese workers from one of the camps and the Porto Ricans took place, in which the latter were unmercifully mauled by the little brown men. The Japs who were held up escaped from the would-be highwaymen and went to a camp of their countrymen, where an attacking squad was formed and the warriors went to the Porto Rican camp, where there were about fifty men. A general free fight took place, in which clubs and fists were used. The Porto Ricans were soundly thrashed by the enraged Japanese and more trouble is looked for.

BANK RECEIVES NOTICE

The following notice was served on the officers of the First National Bank yesterday:

Honolulu, H. T., Jan. 16th.
To the President and Board of Directors of the First National Bank of Hawaii:

The undersigned, the owner in good faith and in his own right of thirty-three (33) shares of the stock of said National Bank, acting both upon his own part and on behalf of sundry other stockholders of said bank whose power of attorney he now holds, does hereby object to and protest against that certain pretended election of a Board of Directors of said bank, claimed to have been held on January 14, 1902, upon the ground that said pretended election, claimed to have been held as aforesaid, was and is wholly illegal, null and void, and of no force, effect or validity whatever; and said undersigned, acting as aforesaid both on his own part and on behalf of said sundry other stockholders, hereby demands that a due, proper and legal election of the Board of Directors of said bank be held as speedily as compliance with the preliminary legal formalities of said election can be had; and said undersigned, acting as aforesaid, demands from you an answer to this demand within the term of forty-eight (48) hours next hereafter ensuing; and if, within said time herein limited, no answer shall be received from you such failure to answer will be taken by the undersigned and construed to be a refusal on your part to comply with this demand. Should you refuse or fail to comply with this demand the undersigned will forthwith resort to his legal remedies.

G. W. MACFARLANE.
By His Attorneys in Fact,
J. J. Dunne, J. Alfred Magoon and
T. I. Dillon.

Stenbecker Thankful.

Editor Bulletin.—Through the medium of your paper, I wish to express my heartfelt gratitude toward the physicians in charge of the U. S. Marine Hospital of this city for their successful treatment of my case (African dysentery), after three years of unavailing treatment in the hospitals of South Africa.

CARL STENBECKER

KISSED AND PARTED.

Rapid Transit car No. 29 coming east at 1:30 this afternoon had a very narrow escape from a collision with the locomotive of the ballast train filling in Ala park. As it was, the fender of No. 29 kissed the cowcatcher of the locomotive and then pulled away under a reversing of the motor.

Y. M. C. A. MATTERS.

Physical Director Young of the Y. M. C. A. announces that the junior members of the association have been invited by Captain Grove of the General C. Tohey to visit his ship tomorrow (Saturday) forenoon. Besides having a chance to study the method of loading sugar aboard, the boys will be treated to a number of selections from a large phonograph which Captain Grove has had installed aboard. All those who intend accepting the invitation are asked to be at the Y. M. C. A. at 9 o'clock sharp.

Tonight, the Evening Class indoor baseball team will meet for practice. For this reason the gymnasium class will begin fifteen minutes earlier than usual in order to make way for the baseball practice.

ALL FORMS BANISHED

CURIOUS COMBINATION OF AGRICULTURAL SAVANTS

With Neither Officers Nor Written
Laws the Members Will Freely
Pursue Investigations and
Experiment.

An agricultural society of curious organization was formed at the office of Director Jared Smith of the Federal Experiment Station in the Capitol basement yesterday evening. It has neither officers nor constitution and by-law—nor even a roll of members. "Anybody who ventures to make a motion will be thrown out of the window," Mr. Smith said this morning.

Still the society has a well-wooded standard of eligibility to membership. "No, it is not a public society, where everybody is admitted," said Mr. Smith in answer to a question. "It is for men working on co-ordinate lines of agricultural investigation and practice. We believe it is much better to have frank and free criticism of our friends rather than that of our enemies."

Those who participated in the initial meeting were: Jared G. Smith, director, with T. F. Sedgwick and Mr. Countess, assistants of the Federal station; Mr. Van Dyne, of the Normal school; E. C. Shorey, Territorial food commissioner; Mr. Krauss, of Kamehameha school agricultural branch, and C. J. Austin, of the Territorial nurseries. Mr. Crawley, director of the Hawaiian Fertilizer Co., and several other members of the society were unable to attend the meeting.

HEARING ON CABLE BILLS

Washington, Jan. 4.—The Senate Committee on Naval Affairs will have a hearing Thursday on Pacific cable matters. The next day the House committee in charge of the cable bills will begin hearings. It is the intention of the friends of the cable to get together, if possible, and push one or the other of the bills through.

COMING THIS WAY.

Washington, Jan. 8.—Secretary Long has detached Rear Admiral Wildes from his present duty as Commandant of the Pensacola Navy Yard and ordered him to relieve Rear Admiral Louis Kempf, the junior squadron commander on the Asiatic station. Admiral Wildes will sail from San Francisco on the China for his post on February 7. It is probable that Rear Admiral Robley D. Evans, who is to be the senior squadron commander on the Asiatic station, will sail on the same steamer.

Shaw to Take Office on 25th

Washington, Jan. 4.—Governor Leslie M. Shaw of Iowa, who was in conference with Secretary Gage for about two hours today, going over affairs of the Treasury Department, and then left with the Secretary for the White House, said it had been decided that he should take charge of the Treasury Department on January 25th.

GILFILLAN'S BODY WAS LAID TO REST

With Impressive Ceremony of Blue Lodge.

WHILE BROTHER MASONS STOOD AROUND GRAVE

To Do Honor to His Memory and
to Eulogize His Many
Deeds of Kindness.

San Francisco, Jan. 6.—Masons of San Francisco conjoined to a grave in Laurel Hill Cemetery yesterday the body of Archibald F. Gilfillan, a resident of Honolulu, who met his death through an accident in Philadelphia ten days ago. With all the impressive ceremonial of the Blue Lodge, the brethren of the dead man honored his memory, and told of his good works in life. Relatives of Gilfillan who live in San Francisco, were present at the Masonic Temple, and conspicuous among the Hawaiian Masons attending were: Samuel Parker, Prince David Kawananakoa, Judge G. D. Gear, George Davis and John G. Rothwell, all Knights Templar and members of Honolulu Commandery.

Acting Master Henry M. Owens of California Lodge No. 1, conducted the funeral service, and read the beautiful and comforting ritual of the Blue Lodge. The Knickerbocker Quartet sang four hymns during the reading, and George Davis of Honolulu delivered a eulogy. Davis said that he had known Gilfillan as man and Mason for many years, and knew him to be possessed of the highest moral qualities. Gilfillan was to have been initiated into the Scottish Rite on his return to Honolulu from Louisville, Ky., whither he went some months ago to represent Hawaii at the convocation of Knights Templar. Davis deplored the sad fate of Gilfillan, who was killed by being thrown from a trolley car in Philadelphia on December 23d. After Davis had concluded Franklin H. Day, secretary of California Lodge No. 1, uttered an impressive farewell to his dead brother. Then the friends of the deceased viewed the body and the funeral cortege departed for the cemetery.

Archibald Gilfillan was a member of the Hawaiian Legislature, and prominent in business circles in Honolulu. He was a Scotchman by birth and formerly resided in San Francisco, where he had an extensive acquaintance.

MUST BE STAMPED.

Washington, Jan. 4.—Attorney General Knox has given an opinion in which he holds that the certificates of stock, amounting to \$25,000,000, proposed to be deposited by the Pennsylvania Railroad Company with the Girard Trust Company, trustee, as the security for certain other certificates to be issued by the latter company for the use of the railroad company are taxable under schedule A of the act of June 13, 1898, and now a part of the act of March 2, 1901. The amount of stamps required will be \$50,000. This opinion sustains Commissioner Yerkes' holding not only in this particular case, but also his ruling to the effect that stocks pledged as collateral on time or call loans must be stamped. Operators on the leading stock exchanges of the country have vigorously opposed this view of the law.

GREAT BRITAIN'S LOSS.

London, Jan. 5.—The total reduction of Great Britain's military forces in South Africa, from the beginning of the war to December, including deaths from disease, men reported missing, etc., amounts to 24,259 men. Of this number 19,40 were actually killed or died. A total of 64,320 men were invalided home, the majority of whom recovered and joined their commands.

James A. Banister

This name on a pair of shoes means a perfect fitting, stylish shoe, made of the best materials and of the best workmanship.

The price is high for a poor shoe, but low for a good one. The Banister is a good shoe. Button or lace in great variety of leathers from 6.00 to \$8.00.
